

WSQ Supervise Work in Confined Space Operation (SWICSO)

COURSE OVERVIEW

The WSQ Process Industry Framework is a generic framework that targeted at training and skill-up workers for the process industry as well related industries. The framework comprises common cross-cutting occupational skill sets for operations, supervisory and managerial level workers across all sectors of the industry. Qualifications would be designed to take into consideration needs of the industry as well as progression articulation for workers.

COURSE CONTENT

1. Identify duties and responsibilities of a Confined Space Supervisor under the WSH legislations and Codes of Practice
2. Identify, prevent and control confined space hazards
3. Carry out and comply with the requirements of a Confined space Entry Permit System using a systematic approach
4. Apply Gas Detection Instruments and other control measures when working in confined space
5. Implement the safe use of personal protective equipment and respiratory protective equipment when working in a confined space
6. Assist in implementing an Emergency Response Plan.
